GUIDE TO THE HORSE PASSPORT LAW

The information below is not an exhaustive guide to the law and has no legal standing. In case of doubt, please refer to the Horse Passport Regulations 2009 and Commission Regulation EC 262/2015 which can be downloaded from our website. The term equine refers to all horses, ponies, donkeys, mules and zebras.

Background: Horse Passports became law in the UK in 2005. A passport is an A5 bound document, issued by an approved Passport Issuing Organisation (PIO). The purpose of the passport is to identify the equine and contain Medication pages which allow that animal to be permanently excluded from the food chain. The food status of the equine recorded within the passport determines which medicines can be administered. Since 2009 all foals have been required to be microchipped as part of the passport application procedure. The completion of the silhouette once again became law from 1st January 2016.

Applying For A Passport: By law a foal must be issued with a passport within six months of birth or by 31 December of the year of birth – whichever date is latest. After this date it will be issued with a passport which permanently excludes it from entering the food chain and is stamped either Replacement or Duplicate.

If a passport is lost it is illegal to apply for a new passport and the owner must apply for a Duplicate Passport. If the animal cannot be identified a Replacement passport must be issued. Duplicate and Replacement passports permanently exclude the equine from the food chain.

Buying & Selling An Equine: It is illegal to sell an equine without handing over the passport at the time of sale. Inspect the passport when viewing an equine. If no passport is available the seller must obtain a passport. Whilst it is not illegal to buy an equine without a passport, it is ill advised and it is illegal to transport the equine home without one. Once you have bought an equine you have 30 days to register your ownership. If you wish to sell the animal within those 30 days you must register your ownership first.

Importing An Equine: If the equine comes from within the EU then it should have a valid passport and you will need to update your ownership within 30 days. If it originated from outside the EU and does not have a valid passport you must obtain one within 30 days.

Day to Day Responsibility: It is an offence to own or keep an equine without a passport. The passport must accompany the equine and be available for immediate inspection with a few exceptions. If you have a horse on loan, run a livery yard with horses on full livery or you transport an equine on behalf of the owner, you can be liable for prosecution if you do not have access to the passport.

Vets are required to ask to see the passport before treating an equine. The vet will need to be aware of the human consumption status of the horse before deciding which category of medicines may be given to the horse. For an example an equine prescribed Phenylbutazone (Bute) would have to be permanently excluded from the food chain.

When the Equine Dies: The passport must be returned to the PIO within 30 days stating date and cause of death if known to comply with the legislation which is enforced by Local Authorities and the Food Standards Agency.

Owners & keepers of equines may be fined up to £5,000 if they fail to comply with the legislation which is actively being enforced by Local Authorities.
