

2020 DUPLICATE PASSPORT APPLICATION

INSTRUCTIONS

PLEASE READ BEFORE COMPLETION OF FORM.

This is an application for a Duplicate Passport where the original passport was issued by the Horse Passport Agency or the Pleasure Horse Society. By law a Duplicate Passport will be stamped as a Duplicate and will be signed as Not For Human Consumption.

If your horse had an identity passport from another passport issuer in the UK, or a breed society passport issued within the EU you need to contact that organisation to obtain a Duplicate. **Unsure? Check the microchip against www.equineregister.co.uk before applying.** If the original issuer cannot be identified we can issue a Replacement passport. Correctly completed applications take approximately 5 to 6 weeks to process.

Sections 1 to 14 to be completed by owner:

Organisation: Leave Sections 1 - 3 blank. Use Section 4 to state the name of the organisation. In Section 5 write "C/O" and the name of the person signing the form, followed by the address. e.g C/O Joe Bloggs, 10 High Street. If completing for Joint Ownership: One owner must complete Sections 1 - 13. GUIDE TO THE HORSE PASSPORT LAW

The information below is not an exhaustive guide to the law and has no legal standing. In case of doubt, please refer to the Horse Passport Regulations and Commission Regulation EC 262/2015 which can be downloaded from our website. The term equine refers to all horses, ponies, donkeys, mules and zebras.

Background: Horse passports became law in the UK in 2005 and are only issued by approved Passport Issuing Organisations (PIOs). The passport is a food chain document that identifies the equine by its microchip and silhouette (markings) and provides information of the food status of the animal. If Section II, part II is not signed the equine is deemed eligible to be slaughtered for human consumption and this determines which medicines can be administered. If Section II is signed the animal is permanently excluded from the food chain.

Applying For A Passport: By law, a foal must be issued with a passport within six months of birth or by 31 December of the year of birth – whichever date is latest. After this date, or if the country of foaling is unknown, it will be issued with a passport stamped as "Replacement" which permanently excludes it from entering the food chain.

If a passport is lost the law requires the owner to apply for a Duplicate Passport. If the original passport issuer cannot be identified a passport stamped as Replacement will be issued. Duplicate and Replacement passports permanently exclude the equine from entering the food chain

Buying & Selling An Equine: It is illegal to sell an equine without handing over the passport at the time of sale so if no passport is available the seller must obtain one before the sale goes ahead. Once you have bought, or been given, an equine you have 30 days to register your ownership. If you wish to sell the animal within those 30 days you must register your ownership first.

Advice: Always ensure you inspect the passport when viewing an equine and make sure it matches the animal you are viewing/buying. The best way to do this is to scan the microchip in the animal and make sure it is the same as the one officially recorded in the passport. This can avoid problems later and let you verify what the owner may have told you about its age etc. The passport is evidence of the equines identity but not proof of ownership and so buyers are advised to get a receipt from the seller to include a minimum of the Life Number from the passport, the seller and buyers name and address with the amount and date paid. If an ownership dispute arises later you will need to seek legal advice as the Horse Passport Agency Ltd cannot get involved in such disputes.

Importing An Equine: If the equine comes from within the EU then it should have a valid passport and you will need to update your ownership within 30 days. If it originated from outside the EU and does not have a valid passport you must obtain one within 30 days.

Day to Day Responsibility: It is an offence to own or keep an equine without a passport. The passport must accompany the equine and be available for immediate inspection with a few exceptions. If you have a horse on loan, run a livery yard with horses on full livery or you transport an equine on behalf of the owner, you can be liable for prosecution if you do not have access to the passport.

Vets are required to ask to see the passport before treating an equine. The vet will need to be aware of the human consumption status of the horse before deciding which category of medicines may be given to the horse. For an example an equine prescribed Phenylbutazone (Bute) would have to be permanently excluded from the food chain.

When the Equine Dies: The passport must be returned to the PIO within 30 days stating date and cause of death if known to comply with the legislation.

Owners & keepers of equines may be fined up to £5,000 if they fail to comply with the legislation which is enforced by Local Authorities and the Food Standards Agency.

Please keep this sheet for your information: Valid for 2019.
